

Solar made easy...

We are trade suppliers to the solar panel industry, with our **no quibble guarantee on quality**, unique within the solar industry. This ensures that you are supplied with the best solar panel technology available in the UK today.

As the only UK- wide trade supplier of the award- winning '**Apricus**' evacuated solar tubes or the

German-engineered number one selling '**Schuco** ' flat solar panels, which are specially developed for the UK and northern hemisphere climates, we can supply your solar technology as 'supply only' or arrange for it to be installed by our trusted and accredited solar installers.

Other benefits to you include:-

Getting you started - Free internet marketing on our UK-wide local installers' directory.

UK Installations – Our installation teams are available to you, giving full UK coverage.

Direct delivery - Using our easy to order website, get your solar kit delivered direct to your customer's address.

Free technical support – Our engineering team is on hand to offer helpful technical support.

With the many benefits for offering solar installations in our changing times, I would like to welcome you to our quality- assured company.

Welcome to the solar century.

A handwritten signature in black ink, appearing to read "Stuart Lovatt", with a large, sweeping flourish extending to the right.
